

CooSpace

Online toolset to support education for all

CooSpace is a communication tool providing a virtual cooperation space for the participants of education process (teachers, tutors, students, researchers and even administrative staff). The mission of CooSpace is to support the interactive, content-sharing, content-producing communities. All user has the opportunity to choose the appropriate communication tools for his/her tasks. CooSpace provides a convenient platform for academic and professional purposes in education.

The scene is the heart of CooSpace. Scene is a virtual place of activities. Scene can be generated for courses, departments, and occasionally created for conferences, researching projects, etc. In scenes a constantly broadening set of tools are serving the cooperation.

Scene synchron: no administration required

My documents: personal storage space for participants

SCORM: Compliant with the latest standards

Rich experience: Embed, attach, media server integration

RICHNESS OF TOOLS

Tools are there for you. For communication purposes, create Forum or a Newsboard with a single click. To measure knowledge, assign Tasks, create Exams or provide Self-testing exams for preparation. To organize course, use Attendance tool, Voting tool or Registration tool. Share information with Folder or Glossary.

CALENDAR

Assigned tasks, exams put notes to the participants personal calendars. All scene appears as an independent layer to make sure you know what you have to do first. Create your own entries. Push CooSpace calendar to the cloud - synchronize with Google Calendar, Exchange Server and your phone.

CONTENT DIVERSITY

No matter what kind of content to display or share, CooSpace will do the right thing. Scenes provide built-in gallery for image files, SCORM-player and rich media experience. Share or copy your files within CooSpace among scenes or personal repositories, or even create and share your own question bank with the WYSIWYG editor.

MOBILE

Get the CooSpace app from your mobile application market. Connect to your university's CooSpace to read forums, task dialogs, materials on the go. Add your comment to your teachers blog, wherever you are. As a teacher, manage student absence with a single tap. View your CooSpace Calendar entries in a comprehensive list.
